O. S. Longman was in Lethbridge on Saturday last.

J. D. Hall was in Lethbridge on business last Saturday afternoon.

Rayo Woolf was in Lethbridge on Monday.

Mr. and Mrs. Geo. Court, Mr. and Mrs. C. E. Allred were in Lethbridge last Saturday afternoon.

There has been quite a bit of repair work done on our streets the past couple of weeks.

Mr. and Mrs. C. W. Lamb and Inez were Lethbridge visitors on Saturday last.

S. F. Cook, J. D. Hall and A. E. Hancock, were business visitors to Lethbridge last Monday.

Mr. and Mrs. S. I. May were in Lethbridge on business Saturday afternoon of last week.

Roads were not damaged at all by the recent storm. Nearly all of the snow was blown off the roads as it fell.

Raymond had a big delegation to the Lethbridge Board of Trade Annual Banquet on Friday evening of last week.

Maurice Cooper of Cardston was in Raymond this week. He is working in Magrath with his truck for a couple of weeks.

T. Geo. Wood District Manager of the Canadian Sugar Factories Ltd. is in Salt Lake on company business for a couple of weeks.

Peter Slevin 16 years old, was the victim of a drowning accident about 4:30 p.m. Sunday afternoon while skating on a lake at the Peter Lynch farm about five miles south of Planch Creek. Thin ice broke and let him through.

The Idlers lost a hot and closely contested game to the Taber Intermediates on Friday night with a score of 32-27 in a league game at Taber. The trip from here was made by car.

Because of circumstances out of our control, we are forced to omit in this paper the report of several local functions and events. We will have these next week and hope our readers will bear with us in our difficulties. Thank you.

Ottawa gossip says that Hon. Arthur Meighen, Canada's former Premier will enter the Bennett cabinet as Minister of Finance. Present financial conditions in the Dominion are said to be demanding the best material obtainable in this important post.

Mrs. S. Fintland and Jack Packwood were drowned on Sunday in a lake near Vulcan where they were skating, when rotten ice gave way. Miss Jessie Packwood, a sister of the drowned man also went through the ice with the other two, but was saved by means of other people on the lake who rescued her with a rope. The victims of the drowning were both well favorably known in Vulcan and nearby towns.

In an official statement made by Hon. R. B. Bennett on Monday, Canada's new Governor-General was announced as follows: "His Majesty the King has been graciously pleased to approve of the appointment of the Earl of Beaconsfield as governor-general of the Dominion of Canada."

Mrs. S. B. Card was very much surprised on Friday afternoon when the G. T. Club called to wish her many happy returns of her birthday. A very pleasant afternoon was spent at bridge and at six o'clock the Club served refreshments. The following ladies were present: Mesdames Roberts, Gray, Kinsey, Wilbeck, Nelder, Kirkham, Nielsen, Holte and Wilbeck.

CONFERENCE NOTES

The Quarterly Conference of the Taylor Stake of Zion was held in Magrath on Saturday night and Sunday, with Pres. H. S. Allen presiding at all of the meetings.

Music for the meetings was furnished by the combined choirs of the Magrath wards with J. O. Bridge conducting, and Mrs. D. H. Keeler at the organ. A number of splendid solos, duets and quartettes were rendered during the meetings and some splendid anthems by the choir. The choir and other musicians received a good bit of praise from the speakers during the sessions.

The speakers at the Saturday evening meeting were: Pres. Heber S. Allen who spoke of the close relationship between the temporal and the spiritual, and encouraged patience and perseverance in well doing. We had a great responsibility in marking the way for the rest of the world. Jas. S. Anderson spoke on the scriptural proofs of the Resurrection and of the visit of the Savior to the Nephites. John F. Salmon spoke of the Atonement on the great blessings we receive from the Life and Personal Ministry of Christ. D. H. Keeler spoke of the joy that would come to those who shared in the Millennium, and voiced his gratitude for the teachings of the Church regarding the hereafter.

The Sunday morning meeting commenced at 10 a.m. and was the largest attended meeting of all, 635 being present. Speakers at this meeting were: J. H. Blackmore who spoke of Prophetic Evidence of Joseph Smith's coming as a Prophet, and enumerated a number of sure signs accompanying this event. The Latter-Day Saints he said were the only people who claimed that these scriptures had been fulfilled. P. H. Redd spoke of the work of the Prophet Joseph Smith and of his privilege in helping in the bringing about of the Lord's purposes. Jas. E. Meeks spoke on the value of dependability, and M. T. King gave a forceful talk on the non use of tobacco, and referred to the programs broadcast over the radio to get people to use cigarettes. Named the planets in our Solar system, and stated that if they were placed side by side that enough cigarettes were consumed in the United States alone last year to make a row four deep, and to end across the diameter of all of these planets. Pres. H. S. Allen, and also Pres. Z. W. Jacobs of the Alberta State Presidency endorsed the remarks of Elder King and the other speakers.

The Sunday afternoon session commenced at 2 p.m. with a large congregation present. The general authorities of the Church and Stake were presided by Pres. O. H. Snow and sustained by the congregation, after which Pres. Snow gave a talk on the Book of Mormon and its truthfulness. Bishop Walker spoke of the blessing and great responsibility of rearing a family. Pres. Evans praised the musicians and the choir members for the contribution they made to the meetings and then spoke of our records as being strong evidence that we did not appreciate the blessings the gospel offered us in the way of happiness and security. Pres. Allen in a few closing remarks urged all land owners to hold on to their possessions. He said that it may be hard to keep them but it would be infinitely more difficult to get the same land back. He endorsed the remarks of the other speakers and encouraged parents to resolve in all things to set proper examples before their children.

The evening meeting was in charge of the Stake M. I. A. and the Vanguard Scouts and Junior Girls of the Magrath Wards gave a very interesting program which preached a powerful sermon on the practical nature of the Leadership the church is encouraging and developing in the youth of the land. The program was furnished and conducted by boys and girls from 15 to 17 years.

126 Feeder Hogs were shipped out of Raymond on Monday this week. This doesn't look like very good business with as much coarse grain as we have in this district this year to be used up. Why not feed it at home?

LETHBRIDGE DEFEATED BY LOCAL III BASKETBALLERS

In a game featured by a rather lopsided score in favor of the local hoop artists, the Lethbridge Collegiate team lost their game in the High School Basketball League. The final score was 46-21 in favor of Raymond.

Raymond was in fine form for the game, and penetrated the five-man defense of the visitors in a very decisive manner. The first quarter was 10-6 in favor of Raymond, and in the points while they held the visitors without a point, making the half time score 32-6. In the last half the visitors changed their style of play and made a better showing, the last half showing a score of 16-15 in favor of the locals.

The locals changed about a good deal, and all the men had a chance in the game, and this made the score look better, as Lethbridge were able to show up better against some combination than others of the local men.

The score hardly shows the team to their true colors as George McKillop as some splendid prospects in the Collegiate lineup, and they can make it interesting for any High School team. Possibly practice in different kinds of combination team work and individual work in what is needed. At any rate they played good on Friday night and fought to the last ditch and this fact was worth a lot, as they faced a five to one defeat when the half time whistle blew.

We don't need to say much about the High School quint. They have a big bag of tricks tucked away and when one brand of play doesn't win the game they change the system, and usually can manage to get and keep the long end of the score. We do not wish to infer that they are unbeatable as a High School team. They have been defeated, and will be defeated again. But when they are beaten their opponents always know they have been through a bad game and a real one. The team has been minus the services of Ken Hague for the past few games due to a slight attack of rheumatism, but he is better now and hopes to be back in the lineup for the rest of the season.

The lineup of players Friday was as follows:

Collegiate: -- Hislop, Halmrodt, Simmons, Maclean, H. Milton, Walker, Short, Leavitt and Wood. Raymond: -- Webster, Nelder, Weaver, Kirkham, C. Red, Galt, Van Orman, King and Woolley.

Ken Stone and Dick O'Brien had the whistle for this game. The girls teams of the two schools played the preliminary to the league game, and the visitors showed the local girls under to the tune of 32-9. The visitors had the advantage of height in most cases, but they were also superior in team work and shooting when a chance came at the basket. The game was interesting and amusing, and didn't lack in excitement for the referees who were kept busy with the whistles checking up the ball. Boothie Card and Frank Weaver refereed this game.

Both games were played in the Opera House and were followed by a Jitney Dance under the auspices of the Raymond A.A.A.

News Notes

C. C. Watson, recently of the Bank of Montreal here was in town for a few days last week winding up his business.

Wm. Paris and Stan Ellis were Lethbridge visitors last Monday.

Mrs. Bert Quinton of Glenwood spent a few days this week with her daughter LaVeve, who is attending the A. C. here.

The Idlers lost their league game in Taber on Friday night last with a score of 32-27. It was described as one of the closest and hardest fought games the Idlers have ever had and it was just because Taber played the hardest game that they won, better luck next time Idlers.

New Organization Will Push Development In Irrigation Districts

CITY-FARM CONFERENCE HELD FRIDAY FORMS NEW BODY TO CO-ORDINATE EFFORTS LOOKING TO MORE FACTORIES TO PROCESS IRRIGATED FARM PRODUCTS-BAAALIM AND BENNION NAMED PRESIDENT AND VICE PRESIDENT OF ORGANIZATION

Lethbridge District Development Association was organized at a meeting of farmers and business men of second quarter. Raymond made 22 Lethbridge and other Southern Alberta towns held in the Marquis hotel on Friday afternoon.

A. G. Baalim of Lethbridge, was named president of the new organization, and Ernest Bennion, president of the Lethbridge District U. F. A. Association, was named vice president. Other members of the executive board named were B. R. McMullin of Elmwell, J. W. Evans of Raymond, and W. H. Childress of Picture Butte.

Development of agriculture in southern Alberta, especially in the irrigated projects, and the establishment of industries which will manufacture the raw products of the farms are the objectives of the new association.

More than 200 delegates, representing every irrigated project from Lethbridge to the United project, besides many representing dry land areas adjacent to irrigation, jammed the main dining room of the Marquis and showed the greatest enthusiasm over the prospect of co-ordinating the efforts of the various organizations of the farm and towns and ties towards the greater development which additional sugar factories, fruiting plants, dairying and livestock raising will bring.

Hon. Geo. Hoadley, minister of agriculture, as an interested spectator throughout the three hour session and on many occasions offered helpful suggestions. He left with the feeling that he was intensely interested in the efforts of farmers and business men of the irrigation districts to help themselves by their own efforts, and gave some valuable suggestions along dairying lines, of bettering the services of Dr. Marker, provincial dairy commissioner, and agricultural department to this end.

He warned, however, that no success could be expected without hard work and especially was this true in dairying. On the other hand the reward would be in progress and a feeling of security in those times when other phases of agriculture are facing a crisis.

I. D. O'Donnell, of Billings, Montana, himself a successful farmer also of several suggestions from time to time. Among other statements made by the Montana irrigatorist was that the "would back the beet crop against any other crop to build up a successful irrigation district." Howard Stutebury, provincial trade commissioner, was also present.

BIRTH OF ORGANIZATION

Decision to form a development association came after a number of addresses by farmers and others, who told what they had been able to accomplish under irrigation, and after Pres. Baalim had outlined the suggestion that co-operative action should be taken in the irrigated areas. The suggestion, he said, had arisen out of a motion passed at the last convention of the Lethbridge U. F. A. association. At that time a resolution was passed to the effect that a committee be named to co-operate with the Lethbridge Board of Trade looking to the development of the dairying industry in the hope that eventually a milk condensing plant might be located somewhere in the area under the ditch. That resolution had led to a small conference of members of the Board of Trade and irrigation farmers during December when a committee was named to bring in suggestions as to further

organization.

MONTANAN SPEAKS

Mr. O'Donnell, called upon to give some word from his Montana experiences, told of what was being done in the Yellowstone Valley, where his own farm was located. He lauded the get together spirit of the gathering and its purpose. The Yellowstone Valley specialized in mixed farming, and it was interesting to know that at a time when the United States had been hard hit by drought and falling prices, the city of Billings had the largest Christmas business in its history. He thought that Canadians were not in bad financial condition—"not half as bad as you think you are," he added. He told of having, during a similar slump many years ago, sold lambs in Montana at 90 cts. a piece, and wool at six cents a pound. Nobody could withstand hard times like the farmer, and he urged the farmers of the irrigated district of Alberta to go right ahead with their livestock feeding, dairying, beet raising and other specialized and diversified programs.

Short speeches were made by a number of farmers present relative to various angles of diversification under the ditch. Louis Brannley of Raymond dealt with Red Label beef in a masterly way, and told how, on feeding 100 last winter, the gain had been 240 pounds a day while he had been able to feed his beef at 65 cts. a bushel, his hay at \$12 per ton in the stack, and yet make \$8.50 per cow animal. All home-grown feeds had been used. The one trouble he had ahead of Red Label enterprise was the question of a market, and this, he thought, could be greatly overcome if housewives would demand and get the quality product now being furnished in the irrigated districts.

K. G. Daggleigh of Iron Springs told of his struggles in dairying on a dry farm, and his success since moving to the Lethbridge Northern.

MORE BEET FACTORIES

Howard Finley, president of the Lethbridge Northern Beet Growers' association, outlined what had been done in introducing beets on that new project. In 1929 only a few had been raised, and these produced seven tons per acre. In 1930 some 2400 acres had produced at the rate of nine tons an acre, a satisfactory increase, and \$32,000 had been paid to the farmers, of which \$60,000 went to beet labor, leaving \$72,000 as the grower's share. He urged co-operation among all interests for the extension of the beet sugar industry because "we have not to have more factories."

Ray E. Smith of the H.C. demonstration farm at Galt Lake, and W. H. Childress of Picture Butte both spoke, after which the meeting decided to organize under the name of the "Lethbridge District Development Association."

A constitution was presented by W. F. Russell, acting secretary. Among other things it provides that anyone interested may become a member by paying a minimum fee of \$1 membership. It was also decided that membership would not be limited to irrigation districts, but that dry land farmers and residents of towns and cities who are interested in development might join. Following the election of the officers above named, the meeting decided that 10 districts would be outlined, each to have a member on the board of directors. The following delegates were named to undertake to call a meeting in their respective districts within 30 days to organize and to name a director.

Cardston: J. Y. Card; United project, Edward Leavitt; Magrath, M. Ririe; Raymond-Strling, Dr. Leech; Lethbridge-Coaldale, Fred Pearson; Taber-Barnwell, Don Miller; Rellaw-Vaughan, J. J. Red; Macleod to be named; Monarch-Coaldale, Emil Hann; Picture Butte-Iron Springs-Sundial, Howard Finley.

ELECTION RESULTS

Civic Elections on Monday passed off very quietly, and only in the neighborhood of 270 votes were cast from a voter's list of over 600.

The Council votes were as follows: M. T. King headed the polls with 221 votes; T. W. Meldrum was next with 218; C. W. Lamb came next with 183. These three were elected, the last two being re-elected for another term. W. Palmer polled a good vote, but was defeated.

For the School Board: Mrs. F. W. Leavitt headed the polls with 193 votes. J. U. Allred next with 163, these two being elected. Mr. Allred being re-elected for another term. Ira McBride was defeated by the small margin of 6 votes, he polling 157 making the race here a close one. There were 5 spoiled ballots.

C. E. Fawns was Returning Officer, assisted by W. W. Dewey.

JACKS WIN FROM SHELBY

In an interesting and flashy game of Basketball at the Opera House on Saturday night 9 at the Uria Jacks won from the Shelby Oilers to the tune of 73-51.

The game opened fast, and the pace never slackened. The visitors proved good shots at long range and almost certain when close to the net. The long passes of the visitors and a man unguarded for a moment meant a basket, and cost the Jacks several points before they stopped it.

O'Brien and Kirkham were the big scorers, and were loyally supported by the rest of the team, who never missed a chance to complete a pass to one or the other of these two under the hoop.

The players and score was as follows:

SHELBY: Annis 16; Storr 11; Travis 10; Dahl 5; Persha 3; Martin 1. Total 51.

RAYMOND: Kirkham 32; O'Brien 27; Nelder 0; Fairbanks 10; F. F. son 2; Nilsson 0; Hague 2; Hickson 0. Total 73.

Ken Stone and E. Zemp had the whistles for this game.

An interesting preliminary was played between the High School and the Idlers, the latter winning with a 35-51 score after an exciting 40 minutes of play. E. Zemp and Harry Fairbanks handled this game.

A jitney dance was held after the games.

A large number of new license plates have been decorating the cars during the past few days.

A recent convention of dairymen in Calgary decided to ask for a professional discussion of Milk Condensers in this part of Alberta. This seems to be a start toward further diversification.

At the beet growers' meeting held in Lethbridge on Friday last it was decided to ask the Federal Government for aid to Beet Growers by wire and if this does not get results a delegation will be sent to Ottawa including Dr. J. S. Stewart, Federal member for Lethbridge, Louis Brannley President of the Southern Alberta Beet Growers was in attendance at the meeting.

J. H. Macdonald and W. A. Rennie were the speakers at the Stake Meeting in the Raymond Opera House on Sunday evening. Elder Keith spoke of the spiritual force back of Mormonism, and Elder Blackmore spoke of Biblical prophecies pointing to the life and labors of the Prophet Joseph Smith. The meeting was very interesting, but the attendance was small, due to Conference in Magrath.

Raymond had a big representation at the Lethbridge Board of Trade Banquet on Friday night last in Lethbridge, those present from here being J. W. Evans, Lewis Brandley, F. R. Taylor, C. R. Wing, O. H. Snow, Wm. Redd, I. B. Roberts, Wm. Witte, W. G. Meeks, L. D. King, J. E. Meeks, Dr. G. W. Leech, D. G. Selman, Godfrey Holmes, and O. B. Longman.

BE THANKFUL!

After all is said and done we still have a thousand and one more blessings to be thankful for than we can say of us fully realize and appreciate. In mentioning this matter, it is not with the idea that we are any more appreciative of this multiplicity of blessings than anyone else, nor to convey the idea that we can see any more of our own blessings than our fellow man. But we believe that in speaking of these things we will probably think more about them and be a little more grateful to the Giver of All Good Gifts for our pleasant surroundings.

We are not going to mention many of those that appeal to us, possibly the greatest is health, strength and the association and confidence of our fellow beings; take any one of these away from our existence and what would the wealth of the world amount to? Visit the sick and maimed in hospitals and institutions, see the patience, the eternal hope of better days, the gratitude that they have that they are no worse, and then ask yourself if money could buy the health, the perfection of life and limb that is ours. Our gratitude for these, and our thoughtfulness of those in less favorable circumstances should be far greater than most of us show.

Again, how about the past winter? We say past because we are at this season of the year where there would not be much winter even if it did not cold now. Is there anyone who can compute in dollars and cents the saving that has been made in coal bills and the suffering that has been alleviated through this mild weather? What better way of helping us in hard times than to protect us from the rigors and severity of some of our Alberta winters. Should we complain of hard times when we are all we need to eat and plenty to wear to keep us warm and comfortable?

We should also be thankful for the self-control we have, and should endeavor to cultivate this virtue. As Solomon said, "A soft answer turneth away wrath." No finer words were ever spoken than these and how often we would save ourselves chagrin and sometimes disgrace if we would bridle our tongues and weigh our words before speaking. To what purpose the idea some of us have of saying things which will hurt others at every opportunity and too often, like a boomerang, they return to do the sender most damage.

You may say why don't you practice what you preach? Well, I suppose if these weaknesses were not in our make up we should not be speaking of them. But because of their prominence in ourselves we pass some of our thoughts on to you in the sincere hope that some of us may be led to live the higher and better life that we are all so well acquainted with in theory, if not in practice.

"GOOD TURNS"

A Scout PRIDES himself upon doing "good turns," and no day in his life is complete unless he has been of aid to some person.

When a Scout gets up in the morning he may tie a knot in his necktie and leave it outside his vest until he has done his "good turn," or he may wear his scout badge reversed to, remind him of his daily "good turn."

Some of the "good turn" deeds that scouts are always looking out for are: removing banana skins or other objects from the pavement so that people may not fall or receive injury therefrom; removing from streets or roads broken glass, nails, wire, sticks or stones, that would be dangerous to automobiles or horses; and of course nothing pleases him more than to be of service to his parents at home, or lend a helping hand on the street to children, elderly people or strangers.

His deeds of service and kindness may not seem large or of much consequence, but it is the little deeds of worth done each day that count; for a Scout's "good turn" was the beginning of Scouting in America.

A wealthy American, (Mr. B. Joyce), had lost his way in London, and was directed to his address by a newsboy Scout. The Scout refused the man's "tip" saying "No thank you Mr. a Scout never accepts a reward for a daily good turn."

This impressed Mr. Joyce so much that he decided to investigate it further. He obtained first hand information from Sir Robert Baden-Powell,

our Chief Scout and founder of the Boy Scout movement, with the result that he returned to New York with the seed of this great movement, and planted it in the fruitful field of Boydom here, and today many men of real character and worth are blessing the memory of these Scouts and their "good turns."

Theodore Roosevelt said: "If you are going to do anything for the average man, you will have to begin before he is a man." So parents, let us help our boys with their "good turns" and adopt the habit ourselves. Written E. J. Fawns.

Our High School team will journey to Marmouth tonight for the last long game of the season in this High School loop. So far the boys have been undefeated in league games, and Marmouth but once had that at the hands of the locals. The game will be hard fought as it means much to both teams.

RAYMOND

(Used by permission of the Author)

In Raymond, In Raymond, that's where I love to be, Amongst the golden wheat fields and whispering poplar trees; Where peace is, and plenty, and happy smiling eyes. And healthy sun tanned children, 'neath azure smiling skies.

In Raymond, In Raymond, the town of sugar beets, There hearts are contented, a hearty handshake greets; The friend and the neighbor, the stranger in the town, In Raymond, In Raymond, the beautiful little town.

H. Kester.

Here and There

(701)

The Nova Scotia fish catch for December last was 12,161,600 lbs., having a landed value of \$266,111, as compared with a catch of 10,480,700 lbs. with a value of \$329,552, for the corresponding month of the previous year.

Total amount of capital invested in Canada from other countries as at the end of 1930 was \$6,375,333,000, an increase of \$229,000,000 as compared with the total at the end of 1929. Of this outside investment, 61 per cent. is said to be from the United States; 35 per cent. British; and 4 per cent. from other countries.

The yield of potatoes in Canada in 1930 totalled 81,933,333 bushels, from 574,500 acres, an average yield of about 142 bushels per acre. In 1929 the yield was 66,550,000 bushels from 543,727 acres, or an average yield of 122 bushels per acre. Potatoes are grown successfully in commercial quantities in every province of the Dominion.

The Canadian Pacific Railway has announced placing of orders with the Algoma Steel Company of Sault Ste Marie for 30,000 tons of 130 lbs steel rail for spring delivery, representing a value of approximately \$1,500,000. This unusually heavy rail will be laid on 150 miles of the company's main line in the Mountain Division of British Columbia.

Prescott, Ont., Canada's newest national port, is rapidly approaching completion. The \$5,500,000 terminal which the Canadian Government is building there as a turning point for the Upper Great Lakes grain boats when they come down through the Welland Canal in the spring of this year will be ready for traffic in advance.

Canoeing history was made at Quebec recently when the seven Lavoie brothers piloted their craft over the ice-dotted waters of the St. Lawrence between Quebec and Lévis in the remarkable time of 3 minutes, 43 seconds, and took first place in the canoe race which was one of the features of the Quebec Winter sports season with headquarters at the Chateau Frontenac.

"Melody Mike," Canadian Pacific Railway radio feature given every Monday night, is not only attracting wide popularity in Canada; the United States also like it and the railway's radio department recently had a letter from a school teacher in Angola, New York state, asking for 55 copies of Melody Mike's Favorite Irish songs, for distribution among her pupils.

In 1930 the Dominion's gold production was valued at \$43,000,000, an increase of \$2,000,000 over 1929. The capital investment in the mining industry in Canada at the end of 1929, the last year for which complete industrial statistics are as yet available, amounted to \$850,000,000. In that year the industry gave employment to 95,000 men and paid out in salaries and wages \$125,000,000.

The establishment of a \$75,000 marine leg for handling grain at the Ocean Terminal is one part of the programme for the development of the Port of Halifax recommended to the Federal Government recently by the Halifax Board of Harbor Commissioners. This addition, in the opinion of the chairman of the Commission, would attract more shippers and vessels to the port, and would save in one year an amount equal to the cost of the equipment.

BLOOD PRESSURE

The blood in our bodies is constantly in circulation. The heart, which fills with blood between beats, thrusts out this blood each time it contracts, thus causing it to circulate. This thrust, or impulse, given by the heart, is carried right along the blood stream in the arteries, and can be felt at various points in the body, notably at the wrist, where it is called the pulse.

The degree of blood pressure varies in different people; indeed, it varies in the same person, from hour to hour, depending upon a number of factors, such as activity and rest. Variations in the blood pressure within certain limits are normal; outside of such limits, if the condition persists, then it is abnormal. If the blood pressure is persistently above or below the normal, this is a symptom which suggests some disturbance of the functions of the body, or the existence of some diseased condition.

Frequently someone states that he is suffering from high blood pressure, such an individual being evidently under the impression that high blood pressure is a definite disease. It is not a disease it is only one symptom which may indicate disease. In the way that sugar or albumin in the urine is a sign of disease, so is high blood pressure a symptom of some abnormal condition.

About the worst thing that can happen to someone whose blood pressure is high is for him to become the type of individual who thinks or talks of nothing else. This is bad for himself and it is hard on his friends. It is not suggested that an abnormal blood pressure be ignored, but once advice has been received from the doctor as to treatment and as to how to live, it would be ever so much better for the patient to follow that advice and stop fussing. We say this, because worry and fussing only make the condition worse. Worry itself is a common cause of increased pressure.

An increased blood pressure may be due to one of many causes. If the heart loses some of its power to contract, the pressure is affected. Other reasons for an abnormal blood

pressure are loss of the elasticity which healthy arteries have, or kidney trouble, or the occurrence of some acute or chronic disease. It is easy to see, therefore, that there are many conditions which are the real underlying cause of alterations in the blood pressure.

The gravity, or otherwise of an increased blood pressure depends, first of all, upon what is causing the trouble, and then as to whether or not the cause can be removed or corrected by proper treatment.

In addition to the treatment directed towards the removal of the cause, mean that the person becomes an invalid; indeed, far from it, because, but it is necessary that attention be given to diet, rest, fresh air, and exercise or work which does not fatigue is actually helpful in most cases. But it is necessary that attention be given to diet, rest, fresh air, and it is usually necessary that a new, at least for a time. This does not or altered mode of living be followed, such other apparently simple, but in is overweight must reduce. Alcohol must be given up.

Just what treatment is needed varies from case to case, as no two are exactly alike, and that is why each needs advice, and supervision on the part of the family doctor so that each may be told how to live in accordance with the particular requirements of his case.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

News Notes

The representatives to the Trustees Convention returned home Friday evening after a successful trip.

R. W. Greenway is the new President of the Lethbridge Board of Trade, succeeding A. G. Baugh who resigned.

A large number of Raymond people were in Magrath on Sunday afternoon, attending the regular Quarterly Conference there.

FOR SALE—Six Turkey hens and a young Tom, 30c. per lb. All good birds. See Bill Rodeback.

Notes from the A.C.

The athletic Dance a week ago Friday night was a great success. A good crowd, good music, nicely decorated hall and good eats all contributed to make the evening a most enjoyable one. R. Depew, president of the Athletic Association, and his committee who were in charge of the arrangements are certainly to be congratulated. Last Friday another very enjoyable social evening took the form of a costume ball put on by the first year girls. Almost everyone was in costume. C. Asplund with motor board, gown powdered hair and goatee was a perfect imitation of an austere professor and greatly was he and his gypsy wife applauded. Mr. and Mrs. Walker were dressed out in real Hungarian costumes. There were also many cowboys, bandits, and chinamen, and one very black "Rastus" busily playing his mandolin.

Mrs. T. S. Acheson of Winnipeg visited her son who is our mechanics instructor. Mrs. B. Quinton of Greenwood attended her daughter's formal dinner last evening.

E. H. Buckingham assistant Field Crops Commissioner spent a few days at the college last week preparing data from last Summer's fertilizer experiments in order that a pamphlet regarding the use of fertilizer may be published. While in the district he also helped with organizing of a local Seed Cleaning Association to take care of the government traveling seed cleaner. We are very glad to see this machine stay in the district as clean seed is a fundamental necessity of profitable farming.

A tractor starting contest was staged in the mechanics laboratory the other day amongst the first year boys. E. Eliason won by starting all eight tractors and shifting each into a specified gear in an average time of 1 1/2 minutes per tractor. There were a number of boys who averaged less than 2 minutes per tractor.

Mr. MacDonald, instructor in dairying has arrived at the school and forthwith the course in dairying is in full swing. We are glad to welcome him again this year and hope he will have an enjoyable stay with us.

Mr. Longman has received the honor of addressing the Union Tractor Co. course to be held soon in Lethbridge. He will discuss the many phases of practical irrigation as applied to our conditions in Southern Alberta.

News Notes

R. H. Tagg, Metropolitan Life Insurance man, was in Raymond yesterday.

The School kids keep the air full of lusty shouts during their intermissions with baseball, softball, and marble games.

O. H. Snow left on Monday for town business in Edmonton. He will return Saturday.

The audit of the Sugar City Municipality is printed in this issue and should be perused carefully by every taxpayer.

Mrs. R. W. Tollestrup entertained a few friends at Court Whist on Tuesday evening, honors being won by Mrs. C. F. Tollestrup and J. G. Kirkham. Those present included Mayor and Mrs. Meeks, Mr. and Mrs. C. F. Tollestrup, Mr. and Mrs. T. K. Roberts, Mr. and Mrs. Wm. Wiggill, Mr. and Mrs. W. H. Zohel, Mr. and Mrs. A. W. Kirkham, Mr. and Mrs. Glen Tollestrup, Mr. and Mrs. Frank W. Leavitt.

Meet the Makers of "Melody Mike"

The Canadian Pacific Railway cross-continent radio feature, "Melody Mike" every Monday night has grown into the most popular radio hour in Canada as is proved by the fact that many thousands of letters continually pour into the railway headquarters from delighted fans. Al and Bob Harvey are responsible respectively for music and general effects and for direction of the dialogue. They are the sons of a well-known entertainer and have sung before the Prince of Wales. They won radio fame as the "A and B" battery boys. This season they have concentrated on "Melody Mike."

AL HARVEY

Mrs. Evelyn M. Biddle is responsible for the continuity and dialogue of the feature. She taught school in rural Ontario where her knowledge of atmosphere was acquired and where she gained the wide experience from which such characters as "Simplicity Sawdust," "Deacon Scratchgravel," "Abe," "Whiskers Wilson," and "Lack-a-day Liz" were evolved. These characters have captured the liking and interest of hundreds of thousands of listeners in.
